“A teacher affects eternity; he can never tell where his influence stops”

Henry Brooks Adams

Unselfish, kind, friendly, understanding. These are but a few of the adjectives a student might use to describe the teacher to whom we dedicate our Annual. This year he is completing ten years of service to the students of Watertown High School.

His enthusiasm for teaching and his interest in his students have been incentives for his students to work harder. Combining a warm sense of humor, dedication and knowledge, he is the symbol of the ideal teacher-student relationship; mutual respect and genuine friendship.

We the class of 1969 are proud to dedicate our Annual to you, Mr. Owen Hannon.
 Directors student activities, promoting better understanding between students and faculty, and encouraging students to fulfill their civic obligations are but a few of the responsibilities of our class officers. Our senior class officers have accepted their responsibilities with zeal and executed them with distinction.

College or business? Vocational school or the military? These are but a few of the questions the class of 1969 must answer. The high school has a complement of six counselors who aid the students in answering these questions. The Guidance department, under the direction of Mr. Colbert, endeavored to bring teacher, students and counselors together as a functioning unit.

The English Department

Significant achievements have been made this year in the English Department under the direction of our new department head, Mr. Watts. In anticipation of the student's entry into the collegiate or business world, the teachers of the English Department have focused their attention on reading, writing, and literature. Throughout every phase of the English language, the students have attained a better understanding and a deeper perception of our native language.

The Watertown High School has kept pace with the sixties through its offerings to the student. Courses in History and Geography show the student problems and solutions encountered by past generations. Modern courses in Current Events enable the student to weigh present social, political, and economic situations against the past. Finally, courses in Psychology and Sociology familiarize the student with the individual and social aspects of man.

The foreign language department of WHS takes interested students to the shores of modern France, Spain, and Italy, as well as to ancient Rome. The consideration of habits and cultures of foreign peoples plays a large part in each course. After years of concentrated study with grammar and literature, books and the laboratory, the student is left with the satisfaction of having a well-rounded knowledge of one or more languages.

Students are encouraged to not only learn the language but the culture of nations.

Watertown is in the hub of a vast industrial complex and as such many of our students go into the world of business. Our Business Department has course offerings designed to keep our students abreast of the advance in modern business practice. From Data Processing and Business Law to Filing and Secretarial practice our students are trained to fill the multitudinous positions that our industrial technology has created.

Assembling the finished product.
As our world becomes more complex, the need for skilled craftsmen becomes greater. The Industrial Arts program at WHS has anticipated this need and has done its part to provide our society with men who can fulfill this function. The Town of Watertown with its industrial complex affords many opportunities to our graduates in this area.
A vigorous, compulsory physical education program for girls has been developed at Watertown High School. Its overall purpose is to provide for the general conditioning through exercise patterns and drills. During these activities a competitive spirit pervades, and individual standards of sportsmanship are put to the test.
Gym classes at the high school provide an invigorating break in the academic routine. The staff, under the supervision of Mr. Palladino, attempt to develop athletic skill and more importantly, they strive to build a competitive spirit and a sense of good sportsmanship.
Specialists

Complementing the purely academic courses and curriculum in Watertown High we are fortunate to have a variety of special departments. Developmental reading, Speech therapy, and Data Processing courses were offered and the Drivers' Education course included road experience. A new course in Photography was also well responded to. As always, medical assistance was readily available from our competent staff nurse.
Much time and effort goes into preparing the meals.

Environment plays a most important part in the smooth functioning of any organization. One of the reasons that Watertown High runs smoothly is its competent and dedicated service people.

The cafeteria staff makes certain that students and faculty receive nutritious food at reasonable prices, and the custodial staff, under the direction of Mr. Hotin, insures a warm and clean setting in which to study.

As a monthly newspaper, the Bulletin, provided the student body with the latest news and events of the year. The members worked hard to publish a paper that was both abundant in the school events sections as well as rewarding in the sports sections. The Bulletin Staff sponsored the annual Holly Hop—the high point of the winter season.
Established a short four years ago, the Harbinger, WHS’s literary magazine, provided an excellent opportunity for creative minded students to see their literary endeavors published. Under the careful guidance of Mr. Neylon, the staff sorted and evaluated the submitted material, and tried to produce a magazine representing the feelings of the student body. This valuable magazine displaying the creative minds of our fellow students will be very significant to us in our future years.

Hi-Y is an outstanding social and service organization. Steve Venezia heads the club as President, with Gregory Folino as Vice President, Richard McHugh as secretary; and Mel Eaton as Treasurer. The members of Hi-Y can look back with satisfaction on such programs as their work with mentally retarded children and their annual ski-trip.

Serving The Community

Hi-Y's main concern this year has been involvement in community activities. Under the guardianship of their new adviser, Mrs. Fitzgerald, some of Hi-Y's activities were the Winter Carnival, Parents' Night Cake Sale, making wreaths and caroling at Christmas, adopting an orphan in India and selling refreshments at Night School. The girls have tried their hardest to live up to, or perhaps exceed, their motto, which reads: "To Create, maintain and extend through home, school and community, high standards of Christian character."
Getting together with people who have the same interests and who desire to express their own "thing" is the main purpose of the art club. It is an opportunity for members to visit museums and various other exhibits where the end product will result in benefiting from individual contributions to art and to enable us to discuss and analyze new concepts. It is a club where the student who is seriously interested in the art field can receive capable assistance and beneficial criticism from his peers.

Art Club: 1st row: Miss Cavallines, adviser, G. Bonsignore, C. Jackson, K. Kelley, J. Anastasi, B. Bowen, A. MacDonald.

Visual Arts And Creative Crafts

Always ready to lend a hand, the Crafts Club has a Christmas toy drive for the children at the Fernald School and The Home for Little Wanderers. The club takes frequent trips to Rockport and Gloucester in order to visit various galleries and shops. The cheerleaders flyers and shakers are also furnished by the club.
Live animals can provide lots of fun and excitement, especially when one has the opportunity to raise and care for them himself. This is exactly what the Biology Club has been doing! They have also spent many an absorbing period in the laboratory. The members have also taken field trips to local points of interest.

Science Can Be Fun

Visits to local observatories highlight the activities of the Astronomy Club. Anyone who displays a genuine interest in amateur astronomy has a great opportunity to share his ideas with those of his colleagues at these club meetings. Lectures by speakers on careers in astronomy help round out the program.
Although chess is a game of strategy, careful study and thought, the 25 members found it very helpful spending many a relaxing afternoon playing chess. The club, advised by Mr. Craig, tried to stimulate the enjoyment of chess and instructed the members to master the art.

Speakers and Thinkers

The chess club practices daily under the direction of Mr. Craig.

The expression of ideas and the development of the thoughtful individual are the main purposes of the Debating Club. The topics range from capital punishment to Viet Nam. Through this friendly exchange of views, the students are also able to match their minds and ideas with those of their classmates.

DEBATING CLUB: Donna Taverna, John Fahmley, Mr. Gardener, Lorraine Del Rose, Susan Wolligo.
Whether it be a dance, a play or a lecture, the projection club has always managed to give assistance to teachers, students, and townspeople in various sound effects, lighting, and other audio-visual aids.

Advised by Mr. McCarthy, the members of the Camera Club spent their club meetings discussing the composition, technicalities, and processing of pictures. The members were given an opportunity to enter their photographs in the Scholastic Photo Contest.

People Helping People

Quid Nunc, one of the most noteworthy clubs of Watertown High School, is a charitable organization composed of girls who proved their time and talents in helping those who are less fortunate. Preparing holiday baskets for the needy families of Watertown, teaching reading fundamentals to young school children and preparing Red Cross chests to send overseas, are only a few of the many worthwhile actions that the members of Quid Nunc have taken to help their fellow man.

Under the guidance of our school nurse, Mrs. Blackburn, those girls interested in careers in nursing and health explored the opportunities and requirements in the field. Learning to work together and to participate as informed citizens in their community were the main achievements of the club.

2nd row: V. Gregorian, L. Masa, N. De’Sville, M. Patt, D. Gariyep, A. Pane, L. Gulla, M. Ganjian, C. Webster, C. Toscano.
A pilot program for the training of medical stenographers and typists was started by the Secretarial Club. This training in medical careers will make it possible for high-school graduates to take advantage of the excellent, well-paying opportunities in this critical area. The Secretarial Club had a busy year planning interesting projects. The club, advised by Miss Moran, compiled a recipe book which was sold for a small sum.

Leaders On The Distaff Side

This active group of 25 did much more than play basketball and assist Miss Raybould and Mrs. Albert in the gym classes. The Boston Traveler got word of their donating food and clothing to a needy family at Christmas, and as a fund raising event, the leaders held a basketball game in February and a dance in March. As a reward for their hard work, the girls went on an all-day picnic in May.

In the Realm Of Books

WORLD LITERATURE CLUB: Noreen Capriccio, Theresa Barry, Brenda Miceli, Dave Esposito, John Pitroli, Valan Aintablian, Roselinda Helmseder, Mr. Grassia.

Under the guidance of Mr. Grassia the World Lit. club planned many interesting and educational activities, such as attending plays, lectures, and motion pictures dealing with famous novels. The main purpose of this club is to encourage the members to become more aware of the many cultural aspects of man. At each meeting the club members evaluate and become familiar with many of the great authors and characters of literature.

Books are the most essential instruments in the process of learning. They are not only useful and informative, but also a constant source of pleasure. The Watertown High School library aides keep this ideal in mind as they willingly help the many students in search of information, enjoyment or other necessary materials. These aides gain little recognition for the service they perform, yet, their's is a most important task to reveal to the student the remarkable world of books.

School Librarian, Mrs. Coen, checks the card catalog.

LIBRARY AIDES: Ara Balian, Pat Ruble, Mrs. Coen, Janice Papandrea, Steve DeFrancesco, Joseph Jassett.

ELECTRONICS CLUB

Got a hobby? The boys interested in electronics investigate the application of the principles of electricity and electronics by assembling instructional kits, which include a universal motor, crystal tuned power supply, audio amplifiers and a variety of radio receivers and transmitters.

An educational field trip, an winter and summer outings, were the Math Club's special activities of this year. In this club, Mr. McGrath has made an effort to promote scholarship in math. The enjoyment and understanding of this subject helped to make the meetings very interesting.

Thinkers And Doers
Sports Minded

Sports is the common ground that is shared by the Track and the Gridiron Clubs. Both clubs encouraged their members to play fair, to be humble in victory and proud in defeat. The clubs have made great competitors out of the boys, leaving them with the lasting feeling of satisfactory accomplishments.

Under the watchful guidance of Miss O'Connor and Miss Sahl, the French Club members have succeeded in combining learning with pleasure. While cultivating an appreciation of the French language, the club has enthusiastically delved into the culture of the French society via the use of films and literature. Producing simple plays and creating a French newspaper have been the major activities of the members who are eager to bridge the gaps between two nations.

Supervisor of the language lab, Mrs. Stella Boy.

**Foreign Languages**

The Language Lab Assistants' club is made up of boys and girls who have volunteered to spend one period per week of their study periods to assist the foreign language teachers in the smooth operation of the language laboratory. These assistants perform a very important service for the school. They check equipment and report problems to the teacher: they help students in managing the controls in the booths; they repair equipment; and most important of all, they have the tape on the console in the lab ready for immediate use by the teachers so that none of the lab time is lost.
Mr. Mastroianni, a native of Italy has sponsored the Italian Club for the past three years. This year, the members obtained increasing knowledge about the culture, customs and language of Italy. A love for the language and appreciation of the culture and people were derived from the study of the language.
Service And Leadership

Working with the faculty and student body, promoting co-operation and inspiring school spirit have been this year's goals of the Student Council. With Patricia Holland as president, Mary Hogan as Vice-President and Treasurer Charles Brady, the Student Council has initiated the election of Steven Venezia of their fellow classmates for the student today—neighbors tomorrow program. The Kouncil Kick-Off dance and their Charity Drive have been main events on the school calendar.

The Spoken Word

SPEECH TOURNAMENT

As members of the Mass. Secondary School Speech League, Watertown orators have an opportunity to participate in discussion, oral interpretation of literature. As members of the National Forensic League our students participate in all speaking activities and debates. These state wide tournaments are most useful for their inspiration and competition. Watertown was the recipient of the New England Forensic Trophy for Dramatic Interpretation. Pupils also participate in the fraternal and patriotic organizations and Oratorical Contests.
Watertown High School has a tradition of presenting outstanding dramatic productions. On March 13-14, the tradition was continued with the production of “Our Town” by Thornton Wilder. Directed by Mr. Paul Hughes, with the assistance of Student Director Priscilla Blackburn, the play was a smash. Audience and cast had a memorable evening.

THEATRE WORKSHOP

Here is a chance for aspiring young actors and actresses to develop and display their talents in performing, directing and possibly writing. At club meetings, the group may be found reading and discussing some of the latest reviews or creating and carrying out pantomimes. The club attends several plays performed by local colleges and dramatic societies. The Theatre Workshop also aids in the production of the Senior Class Play, performing such duties as make-up and costume supervision, prop and scenery designing and publicity.

Sports . . .
Competing in the toughest class in the State, against such powerhouses as Weymouth, Arlington, and Medford, the WHS gridders fought spiritedly with a "never die" attitude. Co-Captains, Peter Rufo and Steve Russo along with Coach Hayes and his assistants led the team through a rugged year. There was a good turnout of WHS students at all games and even in school the spirit was overwhelming.

Finally the football team has been put into a league where they are evenly matched. Maybe next year we'll have a victorious season.

Winning Season
For Soccer

Steve Fico
Charlie Grossi
David Burns
With spirit and determination this year's soccer team chalked up a winning season of 6-4-2. Both Coach Karchenes, for his fine coaching and rigorous training, and the players, led by co-captains Steve Fico and Charlie Grossi, deserve credit for the best season in seven years. The socsters upset almost every front running squad. Coach Karchenes and his team, which was little supported by the student body, should be congratulated for a fine season.

Trackmen Show Co
Once again the WHS Tracksters have come through with a winning season. The outstanding runners were Gary Bombard and Stanley Mills, along with captain Don Kittle. Coach McGuiness led the cross-country team to a 6-1 winning season. The indoor team, led by Co-Captains Steve Ferraro and Jim Airasian, had a winning season of 5-4 in the Middlesex league, toughest in the state.

continued Strength

Spunky Quintet Maintains Spirit

Winning only one of its first five games, the varsity basketball team had trouble this season. Defeating both Cambridge Latin and Arlington early in the season, the Hoopsters, led by high scorer Rich Ryan showed skill and precision. But a lack of height and spotty play kept Watertown from a winning season. Coach McGovern and the team do deserve credit for providing its fans with some exciting moments in basketball.
Dave Perkins after the puck.

Check And Double Check

Having a frustrating season, the W.H.S. hockey team had many obstacles to overcome. Coach Krol had trouble finding a solid first line to play the bulk of the season. The team was also unable to co-ordinate a successful offense and defense. Defeating both Lexington and Concord, the team, led by Captain Steven Venezia, appeared to be pulling out its slump. A successful defense was finally aided by a faltering offense. Next year's team should have a successful season with the return of experienced junior and sophomore players.
Competing against some of the best teams in the state, Coach Hughes’ gymnasts still managed to salvage 2 wins, their best victory being against Weymouth. The teams’ strongest event was long-horse vaulting in which Captain Steve Erickson, Ron Derian and Barry Sjostedt excelled. This young team has a good nucleus of experienced sophomores and juniors which promise a good season next year.

Set Your Sights

Practicing once a week at Kennedy Jr. High School, the Rifle Team strived to improve their ability to concentrate and develop consistency among the shooters. Mr. St. Onge did an excellent job in coaching the team to compete against highly competitive schools. Co-captains Linda Barba and Richard Cook were the high senior shooters backed by an influx of fine sophomores and juniors.

MATH TEAM: Consisting of students who have taken part in four competitive meets, the math team promoted scholarship and competition among high school students. Under the supervision of Mrs. McGrath, captain Charles Nargosian and his fellow teammates worked vigorously to excel in the field of math.
The popularity of Chess is growing every year at WHS. This year the members had successful meets which enforced their hopes for winning the League championship that they have won for the past two years.
Great spirit and determination were the essence of the girls field hockey team. Successfully combined its speed, talent and skill to earn two victories for Watertown High. The girls though largely supported by the student body, never lost their fight all season. They were rewarded for this loyalty by beating their toughest rival, Winchester, in the last game of the year; leaving the senior players with at least one happy memory.
The Weaker Sex?

After so many years of suffering defeat after defeat, the Watertown Girl's Basketball team wound up with the best record in years. Sam Lund, Karen Aronian, Anita Babaian, Sandra Donahue, Margo Stevens, and Carol Ryder played for the varsity which completed its season with a 4-4 record. Heidi Kasper, Eileen Koumjian, Karen Sarkisian, Mary Ellen Tucker, Debbie Becker, Nancy Wing, Maria Timperio, and Pam Koot highlighted the JV team which proudly showed a 6-2 record. Adding strength to both teams were Regina Savignano, Sue Lenhardt, Amy Hughes, Mary Brown, Cathy Joyce, Pat Illsley and Andrea Tosklos.

Before you accept that first job...

Look over your employer as carefully as he does you.

What's the Company like anyway? Would I be proud to work there? Reputation for square dealing with employees? Pleasant surroundings?

Will I be working with others my own age? Are they friendly? Do they socialize after hours?

Will the boss be reasonable? Appreciate good, hard work, but won't explode if I make a mistake?

Will I make a decent week's pay? Have a chance for raises, advancement, more responsibility? How about fringe benefits?

Is the work challenging? I had what it takes to get through high school. Will they give me a chance to use my brains?

Note: Many young men and women in this area can answer "Yes" to these questions. They work for New England Telephone.

Why not talk with our employment interviewer soon... before you graduate? Ask your Guidance Counselor to tell you when and where to apply.

OUR ART ADVISOR: Miss Rose E. Gavrilles, whose genuine interest in the production of a unique and different yearbook helped guide us to prepare the 1969 annual.

OUR PRINCIPAL: Dr. John J. Kelly, whose patience and understanding helped us solve numerous problems with this year's production of our book.

Mr. Finn

All those members of the faculty who, by their co-operation, contributed to the production of our yearbook. We thank Mr. Peros of the Photography Dept. for his assistance.

A special thanks to Miss Moran, Mr. Finn, and their typing classes.

OUR PROFESSIONAL ASSOCIATES:

Mr. Jack Delaney and Taylor Publishing Company.

Purdy Studios, especially Mr. George Corregan, Mr. James Bleiler, and all those whose talents were of invaluable aid.
We, the class of 1969, note with much regret the departure of an English teacher as she leaves Watertown to teach in New Hampshire.

She has instilled in us a great love for beautiful poetry and meaningful novels and plays, through her encouragement and enthusiasm. Her warm personality and her sincere concern for our interests will always remain in our memories.

And consequently, in honor and recognition of an inspiring teacher and a highly respected person, we dedicate this, the supplement of the 1969 Annual, to you, Mrs. Murphy.
Seniors Set The Style

"Tiny Tim" O'Brien
Freak Day

Creatures of every shape and size could be seen rushing to and from classes on April first. A regular tradition at WHS, Freak Day had arrived once more, bringing along with it Seniors dressed as everything from Baby Huey to King Kong. After a day of laughing and staring at one another, an assembly was held to determine the best costumes in several categories.

“Bonica, I told you to get a haircut.”

“Assistant Headmaster” Coughlin.

“I could have danced all night.”

National Honor Society

On May 7, the students of WHS gathered to witness the induction of the new members of the National Honor Society. A total of forty-six juniors and five seniors were added to the society. An average of at least an 83 must be maintained by all students in order to retain their memberships. Among its duties, the society provides a most successful tutoring program which is run under the supervision of Mrs. Barbara Murphy, Faculty Advisor.

WHS is one of only fourteen public schools in the United States chartered by the Cum Laude Society, the secondary school equivalent of Phi Beta Kappa. Students honored by Cum Laude uphold the nobleness of the society’s Greek motto: Character, Justice, and Virtue. Watertown High is proud to recognize the outstanding seniors who were elected to Cum Laude: John Amershadian, Suren Deravedisian, Dot McDermott, Charles Nargosian, Debra Phinney, Thomas Rao, Jane Tobio, Corinne Weber, and Christine Webster.
Golf And Tennis

The Watertown High Tennis team completed its season with a 5-4 record. The team had not had a winning season for fifteen years and this year's team had to work hard to achieve its goal. Co-captains Charlie Grossi and Larry Faye did well in leading the team. Next year's co-captains Fred Scalese and John Fahnley hope to combine to lead next year's team to a better record.

A team that doesn't receive the recognition it deserves is the golf team. Under the supervision of Mr. McNicholas, the team achieved the fine record of six wins and three losses. Since all of the team with the exception of one member are underclassmen, the record should be even better next year!

Mike Boyce hurls the javelin.

Coach McGinness' spring track team had a 5-4-0 record this season. The "Raiders" most important win was against Woburn. Co-Captains J. Strickland and E. Shea along with most valuable player C. Hyde were major factors contributing to the team's success.
Baseball

Under Coach Beradino’s leadership, the baseball team had a fairly successful season. The team had superb pitching from seniors: Richard McHugh and Donald Piscattelli and junior Bob Oteri. Hitting .333, Captain Donald Kittle had the highest batting average for the Red Raiders since Mr. Beradino’s becoming head baseball coach. The drive and spirit shown by the boys in beating second place Winchester in the final game, prompts us to believe that next year we will see an even better record.

One of the most anxiously anticipated days of the year is Awards Day, which was held on May 30. At this annual assembly the students and faculty honored the deserving students. Prizes were awarded in all areas including scholastic achievement, good citizenship, and athletic accomplishment. These awards provide incentive for the future and serve as reminders of days gone by for the senior class of 1969.

Finally came the most important event of the evening, the presentation of diplomas.
Owen Hannon

The bell tolls for Owen Hannon. Watertown has lost one of the finest teachers ever to teach in this school system.

The word dedicated is bandied about in reference to teachers, often indiscriminately, but for those who knew him there can never be any question of the relevancy of this term to Owen Hannon.

Here was a man who lent dignity to his profession, a man who commanded the respect and admiration of colleagues and students alike.

His students knew him as a taskmaster who demanded of them maximum effort of their intellectual capacities. They often chafed under the workload, but never succeeded in having him lower his standard of achievement. Yet when they completed a course with this teacher, they knew they had been through the mill and need never apologize for shortcomings in that subject field.

Owen Hannon taught history and never ceased in the intense study of this discipline he loved so well. It was his conviction that no individual was a complete personality if he did not know and appreciate the contributions of past and present cultures. A main prop of his professional approach was Santayana’s maxim that, “those who cannot remember the past are condemned to repeat it.”

Devotion to his profession by this great teacher was only tempered by his humanistic compassion and affection for his students. He made time for all of them, giving of himself unselfishly well beyond the point of reasonable expectation. If by doing this he could keep alive the academic orientation of a youngster and prod him onto the right path, he felt richly rewarded. This was the nature of the man.

We who knew him best feel the loss sorely. A vacuum exists amongst us that will not easily, nor soon, be filled. But even as we mourn his loss we are comforted by the absolute awareness that we are better people and better teachers for having been associated with him.
