NINETEEN

ANNUAL
WATERTOWN HIGH SCHOOL WATERTOWN, MASS.
ADMINISTRATION
FACULTY
Dear Members of the Class of 1992,

Congratulations! I am delighted to wish you, members of the Class of '92, the very best of good luck and good health for the future. I hope that as you look through this Year Book it will bring back memories of good times in the classroom, on the sports fields, in the cafeteria, in clubs and other activities, and with your friends. I also hope that those memories will remind you of your achievements, both scholastic and personal. I trust that your four years at Watertown High School have given you the skills to make your life, and the lives of others, better. Keep on dreaming, keep on hoping, and keep on learning!

On behalf of the entire staff of the High School, I wish you all good luck in everything you set out to do. Please come back and see us and let us know what you are doing, dreaming, hoping for and learning. We care about you because you are a great class!

Sincerely,

Jennifer M. Huntington

Graduating from high school signifies the transition from childhood, a period when the routine of everyday life is set for us, to adulthood, a time of responsibility and decision-making. Being an adult means that we can make changes in the world that we live in. Thus, hope for a better future lies in the hands of our generation. We have the ability to make a significant difference.

The recent riots in Los Angeles and the crimes that have been committed due to intolerance around the country and the world show that one of the major problems facing us is prejudice. This is a problem that has to be dealt with carefully and immediately, and it has to start with us.

All of us have experienced some form of prejudice in our everyday lives, whether it be racial, ethnic, religious, or based on gender or differences in opinion. As Ambrose Bierce defines it, prejudice is "a vagrant opinion without visible means of support." People are inclined to be intolerant of others and ideas that contrast with themselves and with their beliefs. They tend to be unaccepting of those who are different than or unfamiliar to them. As Charles Caleb Colton wrote, "We hate some persons because we do not know them; and we will not know them because we hate them."

Prejudice is simply ignorance. Educating ourselves doesn't only involve classrooms and textbooks. It also includes opening up our minds. As Helen Keller once wrote, "The highest result of education is tolerance." And as Charles F. Kettering said, "When there is an open mind, there will always be a frontier."

Our Class of 1992 will go on to college or to work. Hopefully, we will take to the classroom or to the workplace all that we have learned in Watertown High School, along with the conviction that we can make a difference by being more open-minded and accepting of the world's differences. Only in this manner will we achieve true success. We should begin attempts to bring people closer together, in order to create a more harmonious existence for people in the future. We have the power and the ability to break down the barriers that separate society into many isolated groups. Society, like our class, is not characterized by homogeneity, and it never should be. Each individual is unique, and her or his distinguishing qualities should be tolerated and accepted with an open mind. Only then can unity and peace among people be achieved. As John F. Kennedy once said, "If we cannot end our differences, at least we can help make the world safe for diversity."

Good luck in achieving this and other personal goals.
Superintendent Dias, Headmaster Ms. Huntington, school administrators, teachers, parents, guests and classmates:

As we, the graduating class of 1992, get ready to start out on our future paths, we are fortified by our solid ties to the Watertown High School community. Probably one of the most valuable skills we have acquired in our four years at Watertown is the ability to work together. We have learned about the value of cooperation in the teamwork we have displayed in sports such as football, field hockey, basketball, track, tennis and track. We have been immersed in the joint effort of publishing the Raider Times, the Ward Painter and the Annual. We have supported each other in drama productions and numerous classroom projects and clubs.

Cooperation is manifested in many ways: communicating clearly and accepting and celebrating cultural and personal differences. Events we have enjoyed such as International Night and the Puttin' on the Ritz Dance display the talent and spirit that comes out of the hard work, patience, and good will of all the members of the Watertown High School community. As students we have developed relationships not only with each other but also with our teachers and residents of the town. By having shared with each other, we will apply what we have learned from these relationships to our future endeavors.

The transition from high school to the world of work, military or post-secondary education is what worries us the most at this time. We might feel all alone as we contemplate our future lives. Perhaps we might feel confused and unsure.

We could ask, "Is success in the real world like the success we have known at Watertown High? Will we be able to stand up to the challenges of the world?" I believe that the answer to these questions is a definite "yes".

Having learned to understand and respect each other's differences, we will apply these skills to the pursuit of our goals and to reaching out to others. We must always remember that we will require the assistance of others at many times in the years to come. We will be asked to aid others as well. Arthur M. Schlesinger, Jr. in The Disuniting of America: Reflections on a Multicultural Society points out that, "The genius of America lies in its capacity to forge a single nation from peoples of remarkably diverse racial, religious, and ethnic origins. It has done so because democratic principles provide both the philosophical bond of union and practical experience in civic participation." We have formed this union at Watertown High. We must now apply what we have learned and experienced to what we may encounter in the future. However, this may not always be easy. Sadly, Schlesinger adds, "Racism ... has been the great national tragedy. In recent times while America has at last begun to confront the racism so deeply and shamefully imbedded in our history."

I believe that the abolishment of racism has seen many set backs. Due to economic instability, the American people once again search despairingly for scapegoats and a way out of poverty. Violence and chaos have once again raised their monstrous heads and now plague the people of Los Angeles, Boston, and many other communities nation wide. We must be wary of the evils of racism and discrimination. By falling back on the strong support and balance that we have encountered at Watertown High, I believe that we will succeed.

As young adults, we need to begin by examining ourselves. We need to confront what needs to be changed in us. Then, we need to work cooperatively to achieve our goals. We will learn not to be afraid of those who are different from us. We will learn not to be afraid of change that will enhance the quality of life for all. By keeping an open mind we will remove the blunders or prejudice. Collectively and individually we will all look for solutions.

In The Razor's Edge, W. Somerset Maugham writes, "Men and women are not only themselves; they are also the region in which they were born, the city apartment or farm in which they learned to walk, the games they played as children, the old wives' tales they overhear, the food they ate, the schools they attended, the sports they followed, the poems they read, and the God they believed in."

I feel that this quote captures the essence that is Watertown. However, snug in our familiar nook, through our own growth process, we need to span out from the center which to us is Watertown High School and to recognize other centers. Our lives will be enriched and consummated by crossing both physical and mental boundaries as we reach for our membership in the world community.
The Class of 1992 entered this high school as scared little freshmen and have left as adults who are a little more wise, a little more mature, and a little more confident for the future ahead. This 1992 Annual will carry us through the good times and will hopefully bring back many wonderful and unforgettable memories that we have experienced through our four years at Watertown High School.

This Annual illustrates many long hours of hard work unselfishly put forth by this year’s yearbook staff and our advisor Mr. Patrick Trani. Many sincere thanks go out to Mr. Trani because without his help and guidance this book would have never been published. To the yearbook staff, Angela Marchesano, Katie Kelly, Kim Dicker, Maureen Lawn, Stephanie Marquis, and Kim Seacrist, thank you for your tireless efforts to make this book such a success. Your hard work has paid off.

To the Class of 1992, may all your future goals and dreams become a reality and may happiness stay with you throughout your entire life. The best of luck to each of you.
