Johnson Pumps, from appr. Fire Department,  
Police,  
Poor, support of,  
Printing,  
Salaries,  
Schools, support of,  
Shed and repairs at almshouse,  
Side-walks, concrete, &c.,  
Street-lights and lamp-posts,  
Town debt, paying a portion,  
Town House, heating, lighting, and care of,  

$108,623.96

By vote of the town, the following sums were applied to meet grants and appropriations, made March 8, 1875; namely:

From Treasury. Dog-tax, 1874, $404.13
" Surplus in part, 10,000.00
" In anticipation of bank and corporation tax, 4,000.00

$14,404.13

Voted to pay the following from the following departments:

" Contingent. Dedication Coolidge Monument, $300.00
" Contingent. Bills due on High School building, $263.28
" Fire department, Johnson pumps, $400.00

Voted, to assess balance of town grants on the polls and estates of the town according to law, $94,219.83

Voted, that the overlayings on taxes, and all other sums received into the treasury, not specially appropriated, or pertaining to definite departments, be placed to the credit of the contingent fund.
In Town Meeting, Nov. 26, 1875.

Art. 8. Voted, That the selectmen be authorized to transfer from the contingent fund to other appropriations such sums of money as may be in excess of the wants of the contingent department.

Grants of money, which the Town Treasurer was authorized to borrow on the credit and behalf of the town,—said money being appropriated as follows; viz.,—

1. A sum not exceeding twenty-five hundred dollars for payment of land damages, and constructing a foot-walk over land of the Baptist Society.

2. For paying land damages to abutters on the line of Market Street, as per award of referees, a sum not exceeding $2,321.79,—two thousand three hundred twenty-one and seventy-nine one hundredths dollars.
ASSESSORS' REPORT.

VALUATION AND TAXES OF THE TOWN OF WATERTOWN FOR THE YEAR 1875.

The valuation of Real Estate is $5,623,600.00
" " " Personal estate is, 2,376,320.00

Total valuation, $7,999,920.00

The whole number of polls is 1,360.

AMOUNTS ASSESSED.

State tax, $6,340.00
County tax, 4,067.29
Town grants, 94,219.83
Overlayings, 2,091.84

$106,718.96

Tax on 1,360 Polls at $2.00 each, $2,720.00
" " Est. $1.30, on $7,999,920, 103,998.96

The sum of $61, has also been assessed as additional taxes, 61.00

The number of Houses in town is, 835
" " Horses " 555
" " Cows " 232
" " Bulls " 5
" " Oxen " 6
" " Acres of land taxed is 2052, +9881 ft.
or about 38 acres more than was taxed last year.
NOTE.—From the earliest times down to the present, the area of taxable land in Watertown has oscillated in this manner from year to year. Some allowance may be made for errors in figures, but the great trouble lies in the errors of early surveys or estimates. Thus, according to the result of a survey taken by Mr. John G. Hall, of Boston, mentioned in Dr. Francis’s History of Watertown (Appendix “L.”):—

The whole contents within the lines was \[3833\frac{6}{10}\] acres.

There has been sold or taken from this amount as follows, and rendered untaxable,—

<table>
<thead>
<tr>
<th>Description</th>
<th>Acres</th>
</tr>
</thead>
<tbody>
<tr>
<td>For United States Arsenal</td>
<td>130</td>
</tr>
<tr>
<td>Mount Auburn Cemetery</td>
<td>130</td>
</tr>
<tr>
<td>Catholic Cemetery</td>
<td>7</td>
</tr>
<tr>
<td>City of Cambridge</td>
<td>32</td>
</tr>
<tr>
<td>Town of Belmont</td>
<td>1,446\frac{4}{10}</td>
</tr>
<tr>
<td>Town purposes</td>
<td>37\frac{4}{10}</td>
</tr>
<tr>
<td>Cemeteries or Graveyards</td>
<td>6</td>
</tr>
<tr>
<td>Religious Societies</td>
<td>4\frac{1}{5}</td>
</tr>
</tbody>
</table>

Deduct also one-half Charles River, 75 \{ These are according to Hall’s survey. 
Small Streams and Mill Ponds, 3
Roads and Railroads, 150

\[2,020\frac{41}{45}\]

And we have remaining, according to Hall’s survey, \[1,812\frac{31}{45}\].

Whereas we have actually taxed, according to the best present information obtainable, without actual surveys in all cases, 2,052+

or about 240 acres more than Mr. Hall’s survey gives.

We cannot forbear to say a word at this time concerning reduction in values for purposes of taxation.

So long as the valuation of estates is honest and just, and so long as different estates bear a fair comparative value towards each other, it will matter but little what that valuation is, for the tax must in such cases be equitably propor-
tioned. But it is useless to bolster up values for the sake of appearances. There has been an actual shrinkage in values of at least twenty-five per cent within the past year, and the people of this town must reduce their grants and appropriations to that extent, or else increased their percentage of taxation.

Respectfully Submitted,

ISAAC ROBBINS,  
JOSEPH CRAFTS,  
GEORGE L. NOYES,  
Assessors of Watertown.
COLLECTOR'S REPORT.

To the Auditor of the Town of Watertown: —

Sir,—I herewith submit my report of the collection of taxes for 1873-74-75.

Note due Union Market National Bank, due April 14, '76, borrowed in anticipation of taxes, 1,000.00

$15,821.79

Surplus, $11,314.34

In closing his report the Auditor would say that in the expenditures of the past year but very few claims of a previous date have been presented, and it is believed that all bills contracted by the different departments for the last year have been presented and paid. The town debt has been reduced $10,000, with an annual saving of interest of $745, a policy, it would seem, wise to continue. The town debt is now $91,893, the interest (annual) $6,069.37.

Respectfully submitted,

E. B. Eaton, Auditor.
ESTIMATES FOR THE YEAR 1876.

* Belmont was incorporated in 1859.
TREASURER'S REPORT.

WATERTOWN, Feb. 15, 1876.

In submitting my report of receipts and expenditures for year ending Jan. 31, 1876, I would say that your auditor has made a monthly examination of my accounts, and has given a statement of the receipts and expenditures in detail in his report, therefore it will be unnecessary to repeat them here. I would state that—

The receipts have been, $178,135 30
The expenditures have been, 177,595 40

Balance remaining in the treasury, $539 90

As shown by my books closed this day.

JOHN K. STICKNEY, Treasurer.

The accounts of J. K. Stickney, Esq., treasurer, have been duly examined by me, proper vouchers have been shown for expenditures, and the balance as above given is correct.

EDWARD B. EATON, Auditor.
# A List of Jurymen

Published by order of the Selectmen.

JOSEPH CRAFTS,

Town Clerk.

WATERTOWN, Feb. 15, 1876.
REPORT OF TOWN CLERK AND REGISTRAR.

BIRTHS.

The whole number of births registered during the year 1875, is 153, 4 less than in 1874.

The number of births is in the ratio of 1 to 33.33 of the whole population.

(Note.—No official census has been announced; but it is reported to be 5,099 for Watertown, as taken the past year.)

Of the whole number born, 86 were males and 67 were females.

One hundred and forty were born in Watertown, 140
One was born in Waltham, 1
Five were " " U.S.A. grounds Watertown 5
One was " " Boston, 1
One " " " Belmont, 1
One " " " Gold spring, N.Y., 1
One " " " New Sharon, Me., 1
One " " " Barnstable, 1
Two were " " Brighton, 2

There were born of American parents, 58
" " " Irish " 57
" " " English " 6
" " " English & Irish " 1
" " " Swedish " 2
" " " German " 1
" " " Scotch & Irish " 2
" " " American & Foreign, 24
" " " Scotch parents, 1

153
The whole number of marriages recorded for 1875 is 63, 15 less than in 1874.

Oldest couple married.

- Groom's age 44 years.
- Bride's " 42 "

Youngest couple married.

- Groom's " 19 "
- Bride's " 18 "

The number of intentions of marriage recorded is 84.

Ratio to population 60.71.

**Occupation of Grooms.**

Mechanics, 14; Laborers, 20; Coach and Expressmen, 3; Clerks, Salesmen, and Merchants, 11; Butcher, 1; Farmers, 3; Mill operators, 2; Restaurant, 1; Tailor, 1; Teamsters, 3; Draftsman, 1; Barber, 1; Jeweler, 1; Lawyer, 1; Total, 63.

**Note.**—Persons solemnizing marriages are required by law to make returns of the same to the Town Clerk or Registrar, between the first and tenth days of each month; and they should be careful to read the instructions on the back of the certificate as to the manner of returns. The Statutes require that the parties to a marriage — if dwelling in separate towns — shall each have a certificate of intention of marriage from the clerks of their respective towns. Marriages have been solemnized to such parties when only one such certificate had been obtained; which is not in compliance with the law.
DEATHS.

The whole number of deaths registered for 1875, is one hundred and nineteen (119), thirty-two (32) more than in 1874.

The ratio of deaths to the population is as 1 to 42.86.

Of the whole number of deaths, fifty-six (56) were males and sixty-three (63) females.

CONDITION OF PERSONS DECEASED.

Respectfully submitted,

JOSEPH CRAFTS, Town Clerk.
SELECTMEN'S REPORT.

It is the duty of those to whom office is entrusted, at the expiration of that trust, to report to those who gave them the authority by which they have acted the result of their action; and also as citizens, having, in common with all others, the best interests of our town at heart, to suggest or to lay before the town, in as plain and practicable a manner as possible, what may seem to them the best course to pursue for their future prosperity and welfare.

In accordance with that view, the Selectmen submit the following Report:—

The town has seen fit to entrust to the Board, not only the duties that were formerly entrusted to the selectmen, but also the care of its streets and its paupers. The increase of the board from three members to five, has allowed the board to apportion its duties to the several members, each one acting in his own department as his judgment might direct, or consulting with all the members upon every subject whenever he had any doubts upon any matter to which his attention may have been called; and we may here add, that, whatever judgment the town may pass upon our actions, the board, in all cases, has been a unit.

For the financial condition of the town, we would refer you to the reports of the Treasurer and Auditor, whose several reports will give you full detail of the expenditures of the year, and to which your careful consideration is invited; for we think, that, with towns, as with individuals, this time of general business depression calls for prudence in granting, and care in
expending such sums as are granted, to the end that the material interests of the town may not suffer, and also that excessive taxation may not burden tax-payers, or the several industries of the town. Whilst the Legislature of the Commonwealth has found it necessary to warn the towns against extravagance, and also to pass enactments limiting the amount of liabilities to be incurred, this town has wisely kept clear of lending its credit to questionable schemes, that would call for a great outlay of money with apparently small return.

We thought, at the commencement of the year, that it was your intention to adopt the motto "pay as you go," and we have in all cases tried to conform to that idea. It is impossible, as you are well aware, in private as well as in public matters, to always name the exact sum that every enterprise may require, and to that end you provide a contingent fund that your officers may draw upon; but we think the town, having once decided how much it will pay for a certain and specific purpose, we should approach the contingent fund with very careful steps, and only use it when absolute necessity requires.

Keeping that consideration constantly before us, we have been compelled to ask for money only in two instances since your annual meeting, and then for objects that you had passed upon, in part, but could not determine the sum required. We refer to the damages paid to abutters on Market Street, and to the sum granted for the crosswalk over the grounds of the Baptist Society, near the railroad track, which sums have been borrowed on short time, and we recommend making appropriations to pay the same this current year.

**CENTENNIAL MATTERS.**

You will recollect that you were greeted, in your last annual report, with an invitation from Concord, and also from Lexington, to unite with them in celebrating the centennial return of the anniversary of the never-to-be-forgotten battle of the 19th of April, 1775. The town promptly responded to
the invitation, and those who had the pleasure of going to either of those places will never forget the enthusiasm or the display. It was the commencement of the centennials; and now, as in 1775, Massachusetts again steps to the front.

The grand culmination we expect in Philadelphia the coming 4th of July, where the nation holds its high centennial festival.

The town, at the same meeting, was tendered a monument, to be erected to the memory of Joseph Coolidge, the only citizen of this town who fell in the battle of Lexington, April 19th, 1775.

The town voted to accept and assume the perpetual care of the granite monument when completed. It was erected by his descendants, and placed at or near his grave, in the old burial ground at East Watertown; and, on the twenty-ninth day of May, the day upon which the Post of the Grand Army decorated with flowers the graves of the heroes who had laid down their lives to maintain and perpetuate that Government, — to establish which this man had, one hundred years before, given his life, — with formal ceremonies, in which the Post, with a large body of citizens united, the town assumed the trust.

**AUDITOR.**

The services of the Auditor have been continued, and the need of such service is so evident that it hardly calls for a passing remark.

**BURIAL GROUND.**

The new wall and fence around the burial ground has been completed, the paths have been laid out, and the lots graded on most of the ground. Additional lots can be laid out when required. A plan of the ground has been made, and is on file, showing seventy-nine new lots, in range C. The cost has been within the appropriation.
LOCKUP.

Under the provisions of Chap. 217 of the Revised Statutes, we have appointed Hiram McLaughlin keeper of the Lockup, and to have charge of all tramps. The sum collected from them, and the service obtained, have done something towards defraying the expense they have imposed upon the town. See report of Town Treasurer.

FIRE POLICE.

We recommend the continuance of the organization. The expense is trifling, and the body can give efficient service in time of need.

STREET LIGHTS.

Additional lights have been erected, making in all 161. Of these 84 are gas, 59 are gasoline, and 18 are oil. The price for lighting with gas is $25 per year; with gasoline, is $18; with oil, is $12 for each light.

No arrangement has as yet been made with the Gas Company for the current year.

There are other localities that will call for the erection of lamp-posts, and lighting of the same. The town has proceeded so far in this matter, that, in justice to some localities, new posts should be erected. But it is worthy the consideration of the town, that, while the first cost of the post is only $25, every one created adds at least $300 to the permanent debt of the town.

ADDITION TO ENGINE-HOUSE.

The plans and estimates for this work come down to us from last year. We think a spirit of strict economy has been pursued by the Department the past year, as you will see by reference to the Chief Engineer's and also the Auditor's reports. They ask this addition or extension for the greater convenience of the men, and for the safety of your horses. After careful examination, we believe that a wise economy
calls for the outlay of $1500. We would, therefore, recommend that that sum be granted.

**REMOVAL OF HORSE-RAILROAD TRACK.**

The removal of the track of the horse railroad to the centre of Mt. Auburn Street, from its commencement on Mt. Auburn Street to Walnut Street, is still pressed upon the attention of the Board, and remains an open question. The net profits to the railroad company were not such a sum as would justify the company in incurring the expense of the removal. They ask us to make such an award as we think the town should pay; and, after a full consideration of the matter, we have decided that the railroad company shall cause the track to be removed from where it now is, and a good and safe track be laid over the above distance in the centre of the street; and the town shall pay to the railroad company the sum of $2,500 upon the completion of the job; and, if the town adopts this report, and appropriates the said sum, the Board should at once issue the necessary order.

**CONCRETE SIDEWALKS.**

At the last annual meeting, a large sum of money was granted for the purpose of extending the concrete walks. They have become, by use, an absolute necessity, and the comfort they give to the travelling public seems to make ample returns for their cost. The work has been done in a very satisfactory manner, and will compare favorably with any work of its kind.

We have not extended the work on Mt. Auburn Street as far as directed, fearing a deficiency in the grant, as we had deemed it necessary to put down granite curb-stones and a brick walk on a portion of Main Street, and owing to Spring Street being narrow for the amount of travel over it, we placed granite curbstones on that, commencing at Main Street, and running to Fayette Street.
There remains unpaid the sum of about $750, which has been assessed upon the several estates along the line of the walks, as the law requires; and when that sum is paid to the treasurer, the department will show a surplus.

We recommend a continuation of the walks where they may be necessary, upon the same terms as they have been constructed heretofore. (See estimates for current year.)

IRON WATER-PIPES FOR FIRE PURPOSES.

Before the annual meeting of last year, inquiry was made of Mr. Leonard Whitney, and of Mr. N. C. Sanger, and of Mr. Miles Pratt, to ascertain if they would allow connections to be made with their several steam force pumps, and certain iron pipes to be used by the town for fire purposes; which pipes were to be laid on Main Street, or other streets, as the town might determine. With a spirit of liberality, for which we tender them our thanks, they heartily concurred in the project, and agreed to give us all the assistance they could render in the matter. The town granted the sum of three thousand dollars; and, after receiving several proposals, the Board accepted the proposal submitted by Davis & Farnum, of Waltham, and the work was commenced and successfully carried out. We extended the work up Main Street, about 200 feet farther than was at first anticipated, stopping on the south side of Main Street at Green Street, instead of at Chestnut Street, as was at first contemplated. From thence Mr. Whitney extended the pipe across Main Street to his own dwelling, at his own expense. We believe by this the town has obtained for the thickly settled portion of our village, greater protection than could possibly be obtained by any other means at the same expense.

We have located seven hydrants at convenient distances, and the trial we had of them should satisfy any one of their efficiency. We think that prudence should compel the town to continue the pipes up Church Street to Fayette Street, up Spring Street to the line of Fayette Street, also up Mt. Auburn Street to Palfry Street, at some time in the future. The expense exceeded the grant about $300.
And to make these works as effective as they should be, the Board of Fire Engineers should be instructed to organize a sufficient number of men to each hose carriage, that is already located at the several pumps, to bring the pumps promptly into work, said men to be under the orders of the chief engineer at all fires, and to be paid by the town, when in actual service.

**LAYING OUT AND WIDENING OF STREETS.**

In conformity to the report accepted by the town, Dec. 22, 1874, to which we shall add a supplement at the coming annual meeting, we have completed Coolidge Avenue.

The expense exceeded the grant about $300, which sum has been paid from the regular highway appropriation.

We have also changed the line of Arlington Street, and of Mt. Auburn Street, against the estate of Mr. Powers, as per report accepted and on file. A small sum of money was assessed upon Mr. Powers. We have received a petition for the widening of Walnut Street, from the Union Market Hotel grounds to the depot of the Fitchburg Branch Railroad Co., and shall submit a report upon the same.

We have completed the cross walk from Mt. Auburn Street to Spring Street, over the grounds of the Baptist Society, and have opened it to public travel; but the season being so far advanced, we were unable to slope the bank on the side of the church grounds, as we have engaged to do. The superintendent of the street should be instructed to make a satisfactory grade, and grass the same.

The report laying out an extension of Morse Street was accepted by the town November 26, 1875, but the season being far advanced, no work has been commenced upon the same. We recommend the granting of the money, as set forth in the report, to pay land damage, and to construct the street.

A plan for the widening of Howard Street, and for a new street and bridge over Charles River to Newton, and an order for constructing the same, has been received from the County Commissioners.
SELECTMEN'S REPORT.

One year is allowed for completing the work. We submit the plan and order for your consideration.

BRIDGES AND CULVERTS.

The Ætna Mills Bridge has been all replanked, and good and substantial railing has been put upon the same.

The bridge over Mill Creek has been well repaired and put in safe condition.

The draws in the bridges over Charles River, on Arsenal Street and Market Street, have both been repaired during the past year, and the expense attending the raising of the draw is constantly increasing and is becoming quite an item.

The culvert over Treadaway brook, on Summer Street, has been enlarged and thoroughly rebuilt. We have put in a culvert in the new cross-walk recently built over the former grounds of the Baptist Society, much larger than the culvert that passes under the Fitchburg Railroad at that place. We have called the attention of the railroad corporation to the fact that their culvert is so small that it checks the flow of water, to the serious damage of the owners of land above. The railroad officials assure us that the coming season they will enlarge their culvert to conform to the size of the one we have erected.

JOHN TEMPLETON BENEFICENT FUND.

The income derived from the above fund was expended agreeably to, and in accordance with, the provisions of the will, and we believe the gift made glad the hearts of all the recipients. For amount and condition of the fund we refer you to the report of last year.

DRAINAGE.

At your last annual meeting, the town, having under consideration the introduction of water, and the consequent necessity of thorough drainage, the town appropriated the sum of thirty-five hundred dollars for "drainage and expense of surveys."
The work was entrusted to N. H. Crafts, who had made the surveys for water, and whose comprehensive report on that subject had been laid before the town. He commenced the work with his corps of assistants, and was paid his bills as the work progressed and as the bills were presented, until June. Some uneasiness was felt at times by your Board, and was expressed to Mr. Crafts, and also to his first and second assistants, Mr. Learned and Mr. Jackson, about the progress of the work, but after a very full and earnest conversation with them upon the matter, and upon the sum appropriated by the town for the work, we were assured by Mr. Crafts himself, and by the others as far as they were able to give an opinion, that the sum granted would pay for all the work, and fully complete the same. We continued to pay the bills as presented, and awaited his report. After a time we learned that a new project was started, without consultation on the part of Mr. Crafts with any member of the Board of Selectmen. We called the attention of Mr. Crafts to the fact, that the appropriation was nearly exhausted, and he assured us that he should not go beyond the sum appropriated. We had no further communications with him until late in November he caused to be inserted in the warrant for a town meeting, to be held the twenty-sixth day of that month, an article calling for an additional appropriation to cover the full expense of the subject of drainage. At that meeting the matter was referred to the Selectmen, with instructions to report to the next March meeting, which report we will submit.

**MOUNT AUBURN TAX.**

The question that arose between the town and Mount Auburn Corporation in reference to taxes, which, by vote of the town and consent of the Corporation was referred to Judge E. R. Hoar, has been decided in favor of the town. Your attention may be called to other lands held by the Corporation, and any interest the town may have should be carefully guarded.
The consideration of the equalization of the salaries of the town officers requires the attention of the town.

In conclusion, we would impress upon your minds (if you are not sufficiently aware of the fact), that the serious and long continued depression of business has had a marked effect upon real estate, as well as all other property. Your assessors will be called upon, and we think justly, to make reduction in the valuation of all landed property. To meet that reduction in values, and not increase your rate of taxation, corresponding reduction must be made in your expenses. We do not ask you to be any thing but liberal in granting such sums, as, after careful consideration, you may deem necessary; but we do ask that you remember that the sums that you grant in March or April must be expected to meet you in tax-bills in September and October, and we think you will find it much easier to check an extravagant grant than to pay a large tax-bill. Let doubtful schemes wait until the increased activity of business and the prosperity of your citizens justify the outlay of money for which they will call.

W. H. INGRAHAM,  
OLIVER SHAW,  
H. W. MACURDY,  
N. C. SANGER,  
WARD M. OTIS,  
Selectmen of Watertown.
REPORT OF ENGINEERS OF FIRE DEPARTMENT.

TO THE HONORABLE BOARD OF SELECTMEN:

The Board of Engineers of the Watertown Fire Department, in compliance with the requirements, herewith submit their annual report of the condition of the department, for the year ending Feb. 1, 1876, together with a statement of its organization and cost of maintenance, accompanied with such recommendations as the efficiency and well-being of the department may, in their judgment, seem to require.

ORGANIZATION.

The department consists of a chief engineer, and two assistant engineers, with thirty-three members, fifteen of which, with James R. Harrison as foreman, are on duty with the steam fire engine, with engine-man, stoker, and driver. The engine-man and driver are permanent men, and are at the engine house at all times; the remaining fifteen men, with M. B. Coligan as foreman, are connected with the hook-and-ladder carriage. The engine-man and driver, in charge of the steam fire engine and equipments, are competent men for their positions, and the officers and members of the different companies are well-disposed and experienced firemen.

APPARATUS.

The apparatus is at present in the best condition and repair, and consists of one steam fire engine and equipments; one four-wheeled hose-carriage, with all the appliances; one
hook-and-ladder truck, with two hundred and eighty-two feet of ladders; a full supply of hooks, rakes, forks, &c.; one fuel-wagon, in good order, used for carrying extra hose and fuel; and four two-wheeled hose-carriages, with hose, located at the different manufactories in town, for the better protection of property in their neighborhood.

HOSE.

The total amount of hose belonging to this department fit for service is, 3,700 feet; 1,350 feet of Boyd’s patent cotton, and 2,350 feet of leather. This supply of hose we consider sufficient for the use of the department for the present.

RESERVOIRS.

There having been no additional reservoirs built for fire purposes during the past year, we have to report the same number as given in the last annual report of the board of fire-engineers, which is nine, located as follows: Mt. Auburn Street, at the east part of the town; Walnut Street, Orthodox Church; Market Street, Morse Street, Cuba Street, Fayette Street, Howard Street, and Orchard Street. In addition, we have seven hydrants connected with Main-street water works; and we think, that, by extending said works through Church, Spring, and Mt. Auburn Streets, as far as Summer Street, we could protect much valuable property located in that vicinity, where the department is at present obliged to work under great disadvantages. And we would recommend that the board of engineers may have authority to thoroughly equip the hose-carriages located in the vicinity of the water-pipes, at an estimated expense of one hundred and fifty dollars, which sum we recommend should be granted and appropriated for the same; also, that eighteen men be appointed by the same board, to take charge of and operate the said hose-carriages, in case of fire, where the hydrants may be used, and we ask the town to provide means to compensate the members for their services while on duty.
HORSES.

We have, for the use of the department, four horses, all of which are in good condition, and well adapted to the service. The stable is too small for our accommodation, and we renew the recommendation of former years,—the enlargement of the same; for, by so doing, there could be a stall provided for a horse when sick, thereby saving the expense of having him cared for outside of the department, and at the same time it will afford better protection for the horses when responding to an alarm of fire.

FIRES AND ALARMS.

During the past year the department has been called to respond to twenty alarms of fire; of this number, twelve were for fires out of town. The whole amount of property destroyed, as near as can be ascertained, was $33,000.00

Amount of insurance . . . . . 27,350.00

Total loss . . . . . $5,650.00

EXPENDITURES AND RECEIPTS.

The expenses for the past year have been as follows:—

For salaries of the members, $4,202.52; for supplies, such as hay, straw, grain, fuel, light, &c., $1,421.15. The receipts of the department the past year from the sale of stable-manure, harness, and filling cisterns, amounts to $114.00. The engine-house will need some repairs the coming year, such as painting and whitening, and we respectfully recommend an appropriation of $6,300.00 to pay the expenses of the department, including repairs the ensuing year.

The items are as follows:—

Salaries . . . . . $4,202 52
Hay, grain, and straw . . . . 700 00
Fuel and light . . . . . 200 00
Shoeing horses . . . . . 100 00
Incidentals . . . . . 500 80
Repairs . . . . . 597 48

$6,300 00
By a vote of the town, the Engineers were instructed to purchase fifty Johnson pumps, and locate them in different parts of the town; and the sum of four hundred dollars was appropriated for that purpose, which amount has been expended. We have not had many fires the past year where the pumps were available, but on one or two occasions they proved of great value.

The Fire Police are very prompt in their attendance at fires, and render the department valuable assistance in protecting property, maintaining order, and otherwise aiding us in the discharge of our duty. We would recommend the appointment of the same number for the coming year.

ACKNOWLEDGMENTS.

The Board of Engineers return their sincere thanks to the department for the promptness displayed by them in responding to the call of duty, their willingness to comply with the rules and regulations governing the Fire Department, and the respect shown their superior officers deserve the highest praise.

To the Police officers our thanks are also due for assistance in giving alarms, and more particularly for their efforts to prevent the sounding of false and unnecessary alarms.

All of which is respectfully submitted,

George B. Moore,
Charles W. Berry,
William E. Farwell,

Board of Engineers, W. F. D.
WARRANT FOR TOWN MEETING.

To George Parker, a constable of the town of Watertown, greeting:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the legal voters of Watertown, to meet in the Town Hall on Monday the sixth day of March next ensuing at nine o'clock, A.M., to act upon the following articles; viz:—

ARTICLE 1. To choose a moderator for said meeting.

ART. 2. To choose all necessary town officers for the ensuing year.

ART. 3. To hear the reports of town officers and of committees heretofore appointed, and act thereon.

ART. 4. To grant such sums of money as may be thought necessary for the uses and expenses of the town for the ensuing year, and for paying a portion of the town debt, direct how the same shall be raised, or act thereon.

ART. 5. To see what method the town will adopt for the collection of taxes for the ensuing year, choose a collector of taxes, and act thereon.

ART. 6. To see if the town will adopt the jury list, as submitted by the selectmen, or act thereon.

ART. 7. To see if the town will grant the sum of two hundred dollars to Isaac B. Patten Post G. A. R., for the purpose of assisting the Post in defraying the expenses of decorating the graves of the deceased soldiers on the next Decoration day, direct how the same shall be raised, or act thereon.
ART. 8. To see what action the town will take with reference to watering the streets, grant money for that purpose, direct how the same shall be raised, or act thereon.

ART. 9. To see if the town will authorize the town treasurer to borrow on the credit and behalf of the town, under the direction of the selectmen, such sums as may be necessary for the use of the town, not exceeding fifty thousand dollars, in anticipation of the taxes, or act thereon.

ART. 10. To see if the town will make the necessary alterations in the engine house, as recommended by the selectmen and Board of engineers, grant money for the same, or act thereon.

ART. 11. To see if the town will instruct the selectmen to grant no licenses for the sale of spirituous or intoxicating liquors the year ensuing, or act thereon.

ART. 12. To see if the town will instruct the collector of taxes, to collect all assessments made by the selectmen for the construction of sidewalks, and also for any betterments that may be assessed in the widening or constructing of any street in town, or act thereon.

ART. 13. To hear the report of the selectmen on the widening of Walnut Street, or upon the discontinuing of any part of said street, or act thereon.

ART. 14. To hear the report of the selectmen upon the widening of Green Street, and act thereon.

ART. 15. To see if the town will reconsider the vote, whereby the school committee were authorized to furnish the pupils in the public schools with books and stationery, or act thereon.

ART. 16. To see if the town will authorize the school committee to employ a superintendent of schools, grant money for the same, or act any thing thereon.

And you are required to notify and warn the legal voters aforesaid, by leaving at every inhabited house in the town, a printed notice containing all the articles to be acted upon, and also by posting up two or more of such printed notices in conspicuous public places in the town, seven days at least previous to the time of such meeting.
Hereof fail not, and make return of this warrant with your doings thereon, to us the subscribers, on or before the time of said meeting.

Given under our hands at Watertown, this fifteenth day of February, A.D., 1876.

W. H. INGRAHAM,
OLIVER SHAW,
H. W. MACURDY,
N. C. SANGER,
WARD M. OTIS,

Selectmen
of
Watertown.
REPORT OF SUPERINTENDENT OF STREETS.

To the Surveyors of Highways:

Gentlemen,—I submit my report of the labor performed on the streets the past year.

We have crushed and put upon the streets during the last year nearly three thousand tons of stone, being a larger quantity than in any previous year. The largest part has been applied to Mt. Auburn Street, Main and Market Streets. Pleasant, Galen and Church Streets have also received their necessary share. We have not used as much gravel this year as formerly, for the gravel we have is of such inferior quality that I think the less we use, and the more crushed stone we substitute, the better the roads will be.

Pleasant Street, near Waltham line, has been cut down, and the travelled road-bed widened. Summer Street has been filled and graded between Spring and Mt. Auburn Streets. A large amount of labor has been performed upon the sidewalks, which has been paid from the Highway Appropriation. A new sidewalk has been made on Arsenal Street, near R. Gilkey’s lumber yard, also on Market Street, along the land of John W. Hartford, also on Pleasant Street, by the land of Mrs. Walletzer, and on Mt. Auburn Street and Arlington Street, by lands of Mr. Powers and of John Coolidge, Jr.

Men and teams have been employed on sidewalks and upon the footway or crosswalk near the Baptist church, so that I have not prepared as large a quantity of stone as I have
formerly during the winter, as appears by the report of the appraisers.

Our horses and carts are in good order and condition, also the engine and stone crusher, as the same report shows.

Respectfully submitted by

WM. PERKINS, Sup't of Streets.
REPORT OF THE SURVEYORS OF HIGHWAYS.

The streets have been under the superintendence of Mr. William Perkins the past year, and his report, in detail, will be found elsewhere, to which we refer you.

At the last annual meeting, the town granted the sum of $1,250 to purchase a new engine and boiler for crushing stone. We found one that had been used some, but was in good condition, which we purchased for a less sum than was granted, as will be seen by the auditor's report.

The roads throughout the town are constantly being improved by the use of crushed stone instead of gravel, and were never in better condition than at the present time.

There have been no new streets added to our care the past year. For names and length of all streets in town, we refer you to the last annual report. The roads being in good condition, and there being a reduction in the price of labor, our estimates for that department for the current year is accordingly reduced.

Respectfully submitted, by

W. H. INGRAHAM,
OLIVER SHAW,
H. W. MACURDY,
N. C. SANGER,
WARD M. OTIS.

Surveyors of Highways.
REPORT OF THE OVERSEEERS OF THE POOR.

At the annual meeting, six hundred dollars was granted to erect a shed at the Almshouse. It has been built, and one side of the roof of the Almshouse was shingled. The cost of both exceeded the grant, but the balance was paid from the grant to the Almshouse. The buildings are now in good repair, and are ample for the number of inmates.

The expenses for the past year have been met by the appropriation, and a small balance is left to its credit, as will appear by the Auditor's report.

The whole number of persons supported at the Almshouse, according to return made to the Board of State Charities, March 31, 1875, was 19.

The cost per week, exclusive of interest on the value of the farm, buildings, &c., is for each pauper $3.97.

Under the management of Mr. Boody and his wife, the Almshouse is, as it should be, a house of refuge to those who, either from old age or other causes, are obliged to seek therein a home.

The small house erected for hospital purposes has been rented all the year, there having been no occasion to use it during the past season for the use it was originally intended.

We are aware of nothing that will call for any extra outlay of money to keep the building in good condition for the ensuing year.
Inmates of the Almshouse for the Entire Year.

Owing to the general depression of business, the call for outside aid has been unusually large. With the return of "better times," we trust we shall be relieved in part from that burden.

A question may arise with the town of Belmont in relation to the support of one of the inmates, but we trust no misunderstanding between the towns will grow out of it.

The graduates of 1875, were, in the four years' course, John T. Blodgett, Fred E. Crawford, Alice G. Patten, Susie P. Sanger, and Joanna M. Riley.

In the three years' course, Maggie A. Galvin, Martha E. Manahan, J. Frank Green, and Hattie E. Wiswall, received diplomas.

Three years' diplomas were also awarded to the following individuals, who had completed their course in previous years:

There will be about thirteen candidates for diplomas at the end of the year.

The figures show the number of Recitations per week. Candidates for graduation in the three years' course substitute any study of the fourth year in place of a study of the prescribed course. Pupils not designing to pursue the whole, even of the shorter course, select, subject to approval of teachers and parents, such of the studies of the whole course of four years as seem best for them. Weekly exercises in Declamation and Composition throughout the course, and in Reading as well after the first year. Music taught once a week; Drawing, two hours per week. Three pupils are pursuing Greek and the other studies of the college course.

EXAMINATION FOR ADMISSION TO WATERTOWN HIGH SCHOOL, JULY 3, 1875.

ARITHMETIC.

I. At 8 per cent, what is the interest of $1 for one month? Why?

II. Add together \( \frac{3}{5} \) and \( \frac{7}{8} \); subtract from their sum \( \frac{5}{11} \), and multiply the remainder by the quotient of \( \frac{4}{9} \), divided by \( \frac{2}{13} \). What is the product?

III. In the metric system, what is the principal unit of length? of surface? of volume? of weight? What prefixes are used, and with what significations, to denote higher or lower denominations?

IV. What is the present worth of $480, due in 4 years, without interest, money being worth 5 per cent? Explain.

V. What is the product of the square root of 819 \( \frac{3}{4} \), multiplied by the cube root of 0.001906624?

VI. What is the amount due on a note for $975, payable to-day, and dated Jan. 1, 1872, at 7 per cent interest?

VII. Write the following fractions in the decimal form: \( \frac{1}{3}, \frac{3}{4}, \frac{2}{5}, \frac{7}{12}, \frac{18}{20}, \frac{8}{13}. \) The following in simplest common fractional form: .875, .625, .917, .0500.

VIII. How many feet in a mile? In an acre? How many rods in a field 19 rods long and 162 \( \frac{1}{3} \) feet wide?

IX. What is the difference in the cost of a piece of cloth 9 yards square, and one containing 9 square yards, at 25 cents per running yard?

X. Certain stocks pay 7 per cent interest on their par value, which is $100 per share. But I can buy them for $80 per share. What per cent do I get on my investment if I buy 14 shares?

ENGLISH GRAMMAR.

I. Examinations are important.
They are tests in which calmness is necessary.
Haste in writing is too common in examinations.
Such haste results in mistakes and hinders right judgment by the examiners.
(1.) Which of these sentences is simple? (2.) Which Complex? (3.) Which compound? (4.) Combine them all into one sentence.

II. Supply the correct pronoun in each of the following blanks:

(1.) Both William and John obeyed ______ teacher.
(2.) If Henry gets a cent or a dollar he spends ______ wisely.

III. Correct this sentence:

There were two apples, the nearest of which was the biggest, but I did not take any of them, for I never did nor never would eat stolen fruit.

IV. Write, with correct punctuation and capitals, five thoughtful lines on the subject: "Story Books."

V. Parse the italicized words in the following:

Sweet to the morning traveller
The song amid the sky,
Where twinkling in the dewy light
The skylark soars on high.

VI. Write two sentences, one containing "shall," and the other "will," each denoting futurity.

VII. Write two sentences containing the same, denoting determination or command.

VIII. Name all the functions a pronoun may perform in a sentence, and illustrate each by a sentence, underlining the noun or pronoun which illustrates the point.

IX. Give the principal parts of "come," "hear," "bid," (to order), "lay" (transitive).

X. Give rules for forming the plural of nouns.

GEOGRAPHY.

I. Bound Europe.

II. Name the River systems of North America.

III. What elevations of land decide the course of the two most easterly river systems of the United States?

IV. Name the States of the United States, and the capital city of each.
V. What causes the great differences in vegetation in different parts of the earth? Describe the vegetation of different parts of the earth.

VI. Name several States of the United States in which agriculture is the chief business.

VII. Name six chief cities of Europe, and locate them.

VIII. What is the general direction of the mountain systems of the Eastern Continent? Of the western? Name the principal mountain ranges of each continent.

IX. In going directly from Boston to St. Petersburg, what bodies of water would you cross, and what countries would you pass?

X. Name and locate the chief races of men.

SPELLING.

Fifty words selected by the examining committee.

READING.

Selections in prose and poetry.

CONDITION OF SCHOOLS, AND CHANGES OF TEACHERS.

At the High School the Committee were called upon, at the end of the Summer Term, to accept the resignation of Miss S. Alice Worcester, first assistant, whose qualities as a teacher are too well established to require repetition or encomium here; it is sufficient to say that Committee, Scholars, Teachers, and the Community generally felt her departure from our school as a public loss. Her position was filled by the selection of Professor George T. Dippold, who devotes three days in each week to the school. With the increase in numbers which will take place at the beginning of the next term, a further increase in the corps of instructors will be necessary. The work of the school, for the year, has been most faithfully performed, and the principal and his assistants have well earned the respect and confidence of all friends of the school.

In the other schools of the town, the committee, at the commencement of the September term, deemed it for the
best to make a general interchange of teachers, from one school to another, which was done, and at the same time the schools were carefully regraded and a programme of instruction laid out for each class. Under this arrangement we believe that beneficial results have been obtained and the general efficiency of the schools increased. Mr. John W. Ballentine, master of the West Grammar School, resigned his position in the latter part of November, and Miss Hulda B. Loud was elected principal in his place. The improvement in this school during the two months that Miss Loud has been in charge, justifies the selection of the committee.

The buildings and furniture are in good repair, and only the ordinary expenses need be incurred in these departments during the coming year.

NUMBER OF CHILDREN IN TOWN.

The assessors for 1875 return 882 children in town, between five and fifteen years of age.

VISITS.

Number of visits by individual members of the committee, 363.
Number of visits by other persons, 307.

REPORT OF SUB-COMMITTEE ON ACCOUNTS.

A committee on accounts was appointed August, 1875, and since Sept. 1, 1875, all expenditures on account of schools have been by their recommendation. At the opening of the schools in September, an inventory was made of books then belonging to the Town.

The number of volumes, and their distribution in the various schools, was as follows:

TRUSTEES' REPORT.

The eighth annual report herewith presented by this Board of Trustees to the town of Watertown, can do little more than repeat what has already been said more than once respecting the growth and prosperity of our free public library.

The accessions made during the year exceed by a large percentage those of any similar period in the past, and their importance is believed to be such as will add something to the average value of our books. No change has been made in the old rules which have hitherto regulated and determined our selections. The rapid increase of institutions like this is giving more and more significance and interest to the question of the proper location of the limit that should separate the books which may properly be admitted to the public library, from those which ought to be condemned by rejection. The importance of the subject entitles it to serious consideration, and to the most thorough discussion. The mode in which it is decided may have less importance in relation to the acts which it authorizes to-day, than in connection with the precedents which it establishes. Pressed to the extreme, it presents two alternatives; on the one hand, that of incorporating into the substance of a library every thing, not immoral, including even the lowest forms of literature, made attractive to the uneducated mind by extravagance in composition, and by exaggeration that falls little short of misrepresentation; and, on the other, that of restricting the choice to those books that cannot deprave and vitiate, and commend themselves most to such as have some appreciation of a genuine intellectual pleasure.
Those who debate the subject most earnestly are they who commit themselves to ultra views, and occupy corresponding positions on the different sides of the question. But we have not allowed ourselves to forget that extremes are too often but the synonym of danger, and that the path of safety is most likely to lie in the middle; and according to that view we have acted.

Accepting, to a limited extent, the principle of amusement at municipal expense, and believing that it properly falls within the scope of a Public Library to supply a certain kind of entertainment, we have, in deference to the insatiable thirst for novelty, which is everywhere active and potent, made constant purchases of new books, mainly because they were new; yet we have always insisted that what the Library furnished in this direction should have no other tendency than to elevate and purify. But it may be safely left for the contents of our catalogue to say whether or not we have been faithful and true to our professed principles of selection.

Our shelves are occupied in the main by sober-looking volumes; for we have, as a rule, resisted the temptation, often recurring, to purchase handsome books,—books abounding in intrinsic worth, yet more attractive and conspicuous as specimens of typographical perfection, elegant binding, or artistic illustrations. The Library can show but few gems. Our best values are in books that are the aids of those who seek the finest thoughts of the best men, in prose or verse; of such as would study the modes and laws of expression in the writings of those whose style has proved them to be masters of our language; and of others who wish to increase and reinforce their own knowledge from the immense accumulations that have been produced in all departments of study and investigation.

And in reviewing the work of the last eight years which have been occupied in building up the Library to what it now is, the trustees thank their predecessors, and congratulate the town that they find therein so little at variance with the principles of true economy, of prudent foresight, and sound sense.
Within a few weeks, the Library has come into possession of a collection of about eighty old volumes, that were long in the custody of Mr. Joseph Bird, whose timely interference saved them from utter destruction. They are the surviving remnant of what had its birth in the last century, and was organized as the Union Library Society in Watertown, "at the dwelling house of Jonathan Bird, innholder in said Watertown, on Monday, the ninth day of December," seventeen hundred and ninety-nine. Their absolute value is small, but they furnish indisputable proof that long since there lived in Watertown earnest and liberal men, who were "desirous of promoting learning;" who thus recognized the claims of education, and the need of a more convenient access to books. The library was maintained, as nearly as possible according to the original plan of its formation, until March 28, 1842, when, by vote of the proprietors, it was conditionally given to the North (School) District. As one of the results of the incorporation of the town of Belmont, Watertown, that now is, lost one-half of the books by a division which could fairly be called unprincipled.

Our Library has as yet drawn scarcely any thing from the rich and varied stores which are to be found in the French and German literatures. But it is to be hoped that at no distant day the trustees will feel themselves compelled, in response to a legitimate demand, to enrich the Library by large accessions derived from these sources.

The urgent need of a separate and suitable building for the Library cannot fail to be self-evident to any one who will but glance at the matter. True, the suggestion is only a repetition, but, in the estimation of the trustees, the subject requires a new and a larger importance on the occasion of each annual report. In favor of the project not many new arguments can now be adduced; yet the old ones come forward every year with large additions to their original weight. To one, and only one of them shall we allude, i.e., the danger to which our property is constantly exposed. It is absurd to talk of the protection which insurance affords. It adds
nothing to the safety of our material. Even if it were able, in case of fire, to refund every dollar that had been expended for the books which now compose our Library, the fact would still remain of large value destroyed, and the community impoverished to that extent. But, further than this, we have collected much that could not be replaced at reasonable prices,—perhaps not at all.

Some may doubt the propriety of pressing this matter at a time when such torpor pervades all branches of business, and all financial questions present unwonted difficulties; when retrenchment is everywhere demanded with so loud a cry as to force an audience from unwilling ears, and encourage those who still have faith in the possible restoration of the lost art of economy, a virtue now little known except by tradition. But the subject is one of so much importance that the trustees cannot conscientiously allow it to pass unnoticed. And the question now is, how long can the town advantageously postpone the erection of a building that shall guarantee the convenience and protection for which we ask. And here we must not overlook the distinction between the real and the supposed, and allow the term economy to become a misnomer. Money is no exception to the universal law, that every thing has its price. Its value commences when its use begins. It may cost more to save than to spend it. The cheap and the low-priced are ever in danger of being confounded. The rule should be full value received for all expense incurred.

And while we strive to keep the town fully alive to the present and future needs of the library, we do not abandon the hope in which we have long indulged, that some abundant benefaction will soon give us that which municipal generosity is not yet ready to grant.

The annexed report of the librarian is an important document. His statements and statistics attest the prosperity of the library, and give an accurate exhibit of all the details of its growth. We should be glad if language could add anything to what was intended in the testimony that former Boards have borne to the completeness with which he has
TRUSTEES' REPORT.

Filled the office that is absolutely essential to the vitality and utility of the library. We can only intimate, for we cannot express, our sense of the obligation under which he has placed every trustee, and every friend and patron of the library. And, for the hearty and harmonious co-operation which he has received at the hands of the assistants, the thanks of this board are due, and are hereby tendered.

The report of the treasurer will show for what purposes the last appropriation has been used. Our treasury is empty, and we ask for the same sum that was granted last year; viz., twenty-two hundred dollars, which will be applied to the same general items of expenditure as appear in the Treasurer's Report. In naming the foregoing sum, it is assumed that the town will make special and separate provision for the expense of printing the annual report of the trustees, and not allow it to become a charge upon the regular Library appropriation. The money derived from the tax upon dogs will, of course, be assigned to the Library, as heretofore.

To the best support and protection the town can afford, the trustees again commend this Library; the offspring of a thoroughly liberal and republican spirit, and, to this community, the parent of a better culture, a larger knowledge, and a unity of sentiment which is in strong and gratifying contrast with the diversity of opinions evoked by the discussion of most matters of public concern. They invite and urge their fellow citizens to know it still better, to use it still more freely, and to avail themselves more and more of that peculiar wealth which enables it to give, and to give liberally, and suffer no loss. Let the demands upon it ever bear some reasonable proportion to its large and increasing capabilities.

Signed in behalf and by authority of the Board.

ALFRED HOSMER, Chairman.

REPORT OF THE LIBRARIAN.

To the Trustees: —

Gentlemen,—In accordance with the regulations of the Library, I submit this, my eighth annual report.

The growth of the library for the year 1875, as may be seen in Appendix I., has been greater than for any other year since it was established.

The circulation is considerably larger than ever before, though not so large as the library is able to provide for. During the last two months, since the present year began, it has been still greater, there having been issued for the month of January thirty-five hundred and twenty-two volumes.

The condition of the books is quite as good as could be expected from the constant wear many of them have had for seven years. A few of those in most constant use may need soon to be replaced; but the great mass of volumes shows few signs of deterioration.

The character of the acquisitions of the past year is not below the standard you have heretofore maintained by your selections. A large part of them will be more and more valuable as time advances. You may safely remind the citizens of the town, that they are, by their yearly appropriations, building up a monument to commemorate the devotion of the town to its higher interests,—a monument which, while reflecting honor upon the present active generation, tends to elevate, improve, enoble the rising and all coming generations.

The increased circulation shows that a growing sense of
the value of such a collection of books pervades the community. You doubtless may sometimes feel impatient, that the most frequent and most earnest calls are not for the best books in the library. But I think our somewhat limited experience shows that when free choice is given to all, the habit of reading is first formed by lighter works, then the habit of reading having been fixed, an improved taste calls for somewhat more solid food. Of course, all good influences combined contribute to the desired end. Not least among these is the fact which is becoming more and more clear to many, that there are books here awaiting their call, that will furnish them with the knowledge that will make them more efficient in their daily work, while it broadens their sympathies and extends their mental horizon.

I wish some means could be found to increase more rapidly the knowledge of books. Popular lectures on books and authors, on science, or on any departments of useful knowledge, would have this tendency. Full descriptive topical catalogues, which can be referred to at leisure, would do much. The former you feel are beyond your province to provide, and the latter are expensive to prepare, expensive to publish.

By aid of the card catalogue, and the help which comes from contact with the books, and consultation with those who read, the assistants are constantly extending their own knowledge of books, and constantly increasing their power to aid those who are looking for books on particular subjects. And I need hardly remind you how fortunate we have been, so far, in having the services of those whose highest wish in connection with the library is, to be of the greatest use to those who would consult its treasures. They have already cheerfully done an amount of work that those unacquainted with the management of libraries have little idea of.

The additions to the shelf-room asked for, a year ago, were made early in the year, but so great have been the accessions of new books that even less vacant room is left now than then. More room may be gained by raising the cases by
another tier of shelves, or by putting the heaters under the floor and extending some of the alcoves into the space thus gained.

This change in the position of the heaters would render possible better ventilation by introducing from out-of-doors, over the heaters, a supply of warm pure air. The windows would then be safer aids to ventilation than now, as they would become useful mainly for the escape of impure air. Whether it be possible to have air moderately pure in so low and crowded a room, in so great proximity to prisoners' cells, and all that this seems to imply, is a question which the interests of health and economy make it worth while to try to solve.

The reading-room has been frequented by a large number. Improved ventilation would tend to increase the number of readers as well as to improve the quality of the work done there. With the depression in business and the enforced leisure of many of its citizens, the town is reaping the reward for its former liberal provisions for the mind's welfare. The more difficult it becomes to a community to make the necessary provisions for such an institution as this, because of a want of profitable employment for its citizens, so much the more useful it becomes as a protection from evils, and a means of preparation for future good. The greater leisure gives greater opportunity to read and study.

Let us hope that the spirit of economy, which all wise men desire to encourage, will not deny the means, so far in the history of this library never asked for in vain, to continue the steady growth of the collections, and to encourage their constantly increasing use.

The gifts to the library the past year have never been excelled in number, perhaps not in quality.

The largest single contribution was by Mrs. Titcombe. This new gift of over two hundred volumes, besides maps, papers, and pamphlets, acknowledged in Appendix II., will cause her name to be transmitted to the future as one of the chief benefactors of this library.

Of another contribution, though of less magnitude, I wish
to speak, because of its historical importance, at somewhat greater length.

The Massachusetts Legislature, for 1842, passed the following resolves:

"Resolves Concerning Normal Schools and School District Libraries.

1. Resolved, That the sum of six thousand dollars, annually, for three years, be, and the same is hereby appropriated to the support of Normal Schools, under the direction of the Board of Education.

2. Resolved, That the sum of fifteen dollars, to be taken from the school fund, be, and the same is hereby appropriated to every school district in the Commonwealth, to be expended in books for a School District Library, and that the Treasurer pay said sum, for said purpose, to the order of the Mayor of every city, and the Selectmen of every town, for each and every school district within the same, which shall have produced evidence of having raised and appropriated fifteen dollars or more for the same object.

"Approved March 3, 1842."

Horace Mann says, in the number of the Common School Journal published next after the passage of these resolutions,—

"Though occupying but an inch or two of space upon the statute book, yet these resolves are eventful of the fate of all coming time. They are intrinsically of greater importance than volumes or centuries of common legislation. To the tide of beneficence which these acts will send forth, there will be no refluent wave. It will widen and roll onward, until it covers the furthest shores of earth, and passes the confines where time is merged in eternity.

"We are not mad, but speak forth the words of truth and soberness. The simultaneous provision for the qualification of teachers for our Common Schools, and for the diffusion over the whole State of the means of knowledge,—the dissuasives against vice and the incitements to virtue,—will make Massachusetts an illuminated,—nay, more,—a self-luminous spot upon the earth's surface."

After discussing more fully the wisdom of the measures, he says that which with our more efficient mode of managing libraries, it is as useful to consider today as in the days when public libraries had their beginnings,—as their purpose remains the same,—
“By means of the library, the great and good men of ancient and modern times,—poets, orators, statesmen, philosophers, sages and divines will come and take up their abode in every secluded nook and corner of our land, and sit down by every fireside in the humblest and lowliest dwelling, and offer to take the young by the hand and lead them to a knowledge and contemplation of this glorious universe,—the handiwork of God,—into which they have been brought, and to unfold the marvels of their own physical structure, and to display before them the heavenly beauty of truth and justice and benevolence and moral intrepidity, and to instil into their young hearts some conceptions of the adorable character of their Creator. How many youth will such a library save who would otherwise be ruined; how many it will fill with intelligence who would otherwise grope in perpetual darkness, and, under the cravings of the unsatisfied mind, become misanthropes, or the pests of society.”

How true! More true than many will yet allow. Still, where are the District School Libraries? Who knows of one in the State still preserved for usefulness? Four volumes came into our Library last year. Now one of our fellow-citizens, Mr. Joseph Bird, having treasured up and preserved the remains of one of these District School Libraries, brings them to you that they may be further treasured and preserved to show our children's children how noble a foundation, though made with feeble means, was laid for all the libraries, whose substantial and fire-proof buildings, with more ample rooms, filled with the growth of years, shall, in no very distant future, be the pride and the confidence of every considerable town in the state.

Between the date of these resolves and the publishing of these comments of Horace Mann, that is, within two weeks from the passage of this law, the owners of what was known as the Social Library, a collection of books that had been supported in the east part of this town by regular subscriptions for nearly half a century, had accepted the conditions of this act, and united to form a district school library. May the spirit of the fathers still remain with the children during all future generations.
That the school libraries did not accomplish the purpose of their founders, should warn us of the great care we need to exercise in preserving what has already been accumulated. Who, of all those who may have come into possession of any of the volumes of any of these old District School Libraries in this town, is willing to send them to this library, as a contribution to the common good?

It has seemed desirable to some that some detailed description of the books added the past year should be given in this report. Such a description has been begun, but abandoned, from a fear that you would feel it might be a burden to the town so to extend the length of this report. In the following supplement you will find all books entered under the names of the authors where known, alphabetically arranged, and most of the more important works also entered under their appropriate subjects. Our reading-room tables abound with literary comments and criticisms of the new books as they are issued, which it seems useless to copy and a hopeless task to excel. Our Library is quite fully provided—for a small library—with bibliographical works, which are open to all. With the allowance of the past few years, it is possible to procure many of the more attractive and inexpensive books as they are published. It is pleasant to be able to give out a fresh new book when it is called for, almost as pleasant as to be able to answer the call for some choice old standard work, that has endured the criticism of the ages. We hope the best of the new books may always be found, as they appear, upon our shelves, and the accumulation of the best of the old standard authors may continue to be made as opportunity to purchase may offer.

Our list of periodical works is now considerably extended. With the issues of the Patent Office, which are regularly received, a complete set of the Scientific American, and many works on special trades and useful arts, works on architecture and machinery, our young mechanics and manufacturers and builders may, with profit to themselves and honor to the town, spend many studious hours around our reading-room tables.
Students of history, of the fine arts, of science, of general literature, will find in the works catalogued under Periodicals titles which cover a vast amount of well-written and useful matter.

In closing, gentlemen, allow me to thank you for the uniform courtesy which you have ever extended me during these eight years in which I have honestly tried to serve the town in this capacity; and allow me to bear witness to the spirit which has, during all the meetings ever held with reference to this library, led you, without party feeling or sectarian bias, — often with self-sacrifice, — to seek only what seemed for the highest good of the Library. I had hoped to see this Library established in a substantial building of its own, that its future might be more certainly assured; but what assurance can be greater than that which is given by a constant, steady growth in the esteem and kindly feelings of those who support it.

All of which is most respectfully submitted,

SOLON F. WHITNEY, Librarian.

</table>

The library was open three days each week, at first; now it is open every day (except Sundays and legal holidays) from 3 o'clock till 6, and from 7 till 9.

* The library was closed for three months, and the reading-room for a much longer period.
† The numbers reported for 1873-74 were for a period of only about ten and a half months, ending with Jan. 1, 1874.
